## **SECTION 4 - Considering the Social and Economic Needs of Persons in Rural Areas**

### **4A. Please provide details of the issues considered in relation to the social and economic needs of people in rural areas.**

The primary purpose of this Pilot Programme is to provide learning to Sport Northern Ireland, so that we understand how organisations value environmental sustainability, and become more knowledgeable about the types of energy interventions that can have the greatest impact within sporting organisations. The programme is open to all clubs in Northern Ireland who have freehold ownership or leasehold (10 year minimum) and are affiliated to a National Governing Body of Sport.

As previously noted, the Renewable Energy Fund (Pilot Programme) has one overarching objective:

“To reduce the environmental impact of sports clubs in Northern Ireland.”

However, the pilot programme also has secondary objectives, which reflect commitments made in Sport NI’s Corporate Plan – The Power of Sport (2021-2026), including:

- To reduce the environmental footprint of sports clubs.
- To reduce carbon emissions at sports clubs.
- To contribute to a more sustainable sports club network.
- To create a ‘greener’ sports club sector.
- To save on utility bills and reduce costs, enabling sports clubs to redirect resources back into their clubs/sport.

Sport NI has also committed to contributing to the delivery of recommendations made in the Environmental Strategy for NI, particularly Outcome 2 - Healthy & Accessible Environment & Landscapes everyone can connect with and enjoy.

The programme therefore considers the issues in relation to the social and economic needs of people in areas across Northern Ireland and not just in rural areas.
